**Available now!**

CompX Security Products announces its newest innovation: a refrigerator kit for the **CompX eLock<sup>®</sup>**. Providing the same security and monitoring capabilities as the original CompX eLock<sup>®</sup> for cabinetry, the kit mounts externally and can be used with refrigerators or freezers. And it can be used almost anywhere: pharmacies, nurses' stations and research labs — wherever cold storage access control is required.

The CompX eLock<sup>®</sup> refrigerator kit is another innovation from CompX Security Products that puts you in control.

To learn more about the new CompX eLock<sup>®</sup> refrigerator kit or the original CompX eLock<sup>®</sup>, contact CompX Security Products.
